

## Thoughts from our clients

Here is what people are saying about Spot-On Grooming:

"Our dog had a biting problem. When we were turned away at other facilities because of Oscar's behavior, Shaun and Rachel were very instrumental in guiding us on how to improve his well being and end the biting. We love Oscar very much, and he no longer scares our children! We proudly travel from Nampa to use their services."

- The Corisis Family

"My Pug dog Bigsley is a shedding machine! Rachel keeps the hair from taking over our house by keeping Bigsley clean, brushed and conditioned. Plus, she loves to go visit Rachel and smells great after her day at the salon!"

- Mrs. Pill

## Our Experience and Personal Care

We have over 14 years combined experience with both large and small breeds.

We care enough to take the time to develop a trusting relationship with each pet by maintaining a calm and low-stress environment. This allows us to devote extra attention to comfort and safety.

Consideration to the little details makes a big difference in the way your pet looks and feels after a grooming appointment.

## Our Grooming Services

We can tailor your pet's haircut to your specifications by taking the time to find out just how you want your pet to look.

Just as every person is different, every pet is different as well. That is why we are flexible with our services.

Our prices include all Full Groom services. If your pet needs more or less than what a Full Groom includes, we can customize the service to what you and your pet require.

*With a full grooming service we...*

- 1) Completely brush out your pet so that they are entirely free of tangles and dead undercoat (with the exception of very matted animals in which case we may recommend a short haircut).
- 2) Trim the nails, clean the ears and pluck the ear hair if needed.
- 3) Bathe them in warm water with carefully selected shampoos that match your pet's coat type and skin condition, and express the anal glands if you desire.
- 4) Next they are dried thoroughly and combed.
- 5) Then, if they are getting a haircut or trim, we use a combination of clipper and scissor work to create a look that brings out the best in your pet.
- 6) As we groom your pet we keep an eye out for any possible health issues, such as ear infections, that you may need to know about.

## Our Photography Services

We offer the unique opportunity to get your pet's portrait taken immediately after it has been groomed.

After the grooming your pet is calm and relaxed. This is a great time for us to capture just the right pose for the perfect picture.

Our goal is to capture your pet's one-of-a-kind personality!
